

Loodusteadusliku pärandi avalikustamine Europeana platvormil

Projekti kestus: 01.03.2011-28.02.2014

Projekti kontaktisik: Kai Vellak (kai.vellak@ut.ee)

Rahastaja: Euroopa Komisjon

Projekti kogumaht: 46 940 EUR

Ülikooli maht: 37 552 EUR

Projekti veebileht: <http://open-up.eu/en>

Projekti eesmärgid:

The project will address the following objectives:

- 1) mapping between Community and Europeana data standards;
- 2) adding data providers for multimedia content;
- 3) enrichment of metadata towards compliance with Europeana standards;
- 4) incorporation of multilingual metadata, in particular common names of organisms;
- 5) a single access point to distributed natural history multimedia content for Europeana;
- 6) a sustainability plan for network maintenance;
- 7) development of a consistent copyright strategy for participating data providers.

Natural History Museum of the UT will participate at the objectives (3) for identifying complementary data sources to set up metadata vocabulary for zoological and botanical names and checking data quality; and at the objective (4) enabling access to information from natural history objects for public by bridging to scientific names via their multilingual common names representations.
